Dear Jim:

Please find enclosed two copies of a Preliminary Draft Focused Feasibility Study Report for Operable Unit One at the Greenwood Chemical Site in Greenwood, Virginia.

I understand the Superfund Memorandum of Agreement between the Commonwealth of Virginia and EPA stipulates that your agency will provide comments within 30 working days. However, since this is a Preliminary Draft, we would appreciate any preliminary comments you may have within 15 working days if possible.

Please call me if you have any questions prior to or during your review of this document.

Sincerely,

Darius Ostrauskas
Remedial Project Manager
